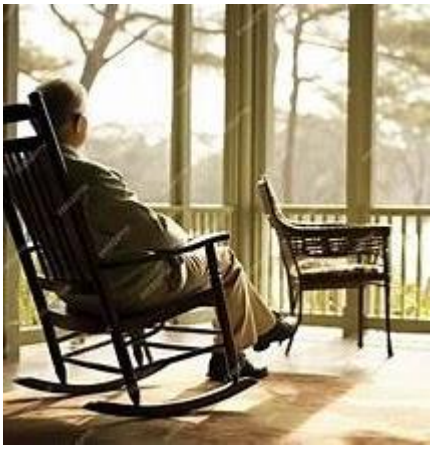
We propose to initiate a new Dedicated Chair Program to address the current need for replacement seating. Many of our existing chairs were originally acquired through a chair dedication program nearly 30 years ago. Over time, most of these chairs have aged, become worn, or broken, and now only a few remain in usable condition.

The new program would honor the legacy of the original initiative by offering individuals and families the opportunity to dedicate new chairs, commemorating loved ones and community members. This approach not only helps us restore and enhance our seating but also continues the tradition of community involvement and remembrance. We look forward to revitalizing our gathering spaces and ensuring they remain welcoming and comfortable for years to come.



With each $150.00 sponsorship, we will purchase one chair and affix a gold plaque bearing the name of the dedicatee, celebrating their memory or contribution. This ensures that every gift directly honors those who are cherished by our members. We aim to collect 50 chairs for our cabins and lodges. Please consider donating today.
